Unfortunately you need night witch to use it as the role of her is irreplaceable. If you are asking which are the best bridge options Arena 5, we will be listing them in this guide! Take a look at our post about theÁBest Decks in Clash RoyaleÁfor more things that you can play! Best Arena 5 Decks Things are serious now, because while losses didn'tÁÁÁ count in the previous three arenas they do now! If you lose three times in one of the arena rounds, you will be out of the event. There may even be a good tip for pro players.Clash Royale Arena 5 Deck GuideChoosing a Win ConditionChoosing a good win condition is very important.For those who don'tÁÁÁ know what a win condition (win-con for short), it'sÁÁÁs the card in your deck which is going to blow up the opponent'sÁÁÁs tower. You can retry it again if you want for 10 Gems. But heeÁÁÁs very easily distracted and has a slow hit speed, which makes it difficult to land hits on the tower.You have a good range of tank killers to choose from. It should have good health, moderate to high damage and it must be able to get to the tower most of the times.ItÁÁÁÁ recommend you to choose a win condition which attacks buildings so as to get guaranteed damage on the tower.You have a good selection of win conditions to choose from:It doesn'tÁÁÁÁ matter if you don'tÁÁÁÁ have a legendary.Honestly, you'eÁÁÁÁ still be able to push ahead. Alternatively, if you have Pass Royale, you can re-enter for free! Decks are pretty similar to Arena 5, but you will see a few differences here and there with the addition of Princess and Hog Rider. Poison deals damage over time, while Lightning hits only the targets with the highest hit points. The Clash Royale Arena Challenge of 2022 is underway, which means you will be running through the gauntlet of different arenas on your way to the highest parts of the arena. Valkyrie & Hog Rider Deck Instead of running with Princess, weÁÁÁÁre going with Hog Rider in this deck. Back in the old days, Ice Wizard and Princess were the only Legendaries. If you'eÁÁÁÁre lucky enough to unlock the fiery card, use it! Up push from the back and supports your lavagound with baby dragon + minions.miner deckgod tier miner deck for lower arenas, plop the miner in front of minions, skeleton army, witch, whatever! Use the hunter for defense. Most spells also provide a special mechanic. Choose any of them. If you have chosen an expensive win-with, I suggest you choose a cheapest killer like Mini Pekka or Hunter.Build the victory up! I can't stress the importance of buildings! There are 2 types of buildings, passive and active. For example, the wizard can be killed by poison, fire ball and lightning. The night witch works very well with Golem if you have the unlocked of her. Brewing Your Spells Spells are an integral part of the game. Simply need spells needed to progress, because they provide great utilities and fluidity in defense and in case of offense. Value on the opponent tower. If the opponent's support is making your lavagound suffer, you can do it bizzt with lightning. If you are lucky enough to pack the baby's dragon, you should take it. You can zip the opponent tower along with its army minion / skeleton and also get the value of the spell. A Wizard does not rise to Lightning. Obviously you will see a lot of Valkyrie in the bridges you will play against. Getting a legendary card was absurdly rare Á c á ~ 1 in 10,000 silver speakers contained a legendary. Players' players do not have a single legendary card but has the right to the top of the game (about 3K trophies then.) However, Choose a winning solution from the cards above and add it to your deck. Cards to support your Vincentenext condition, choose a support card that helps your solution to get to the tower or defend the tower well. The support cards generally have one olrinif olrinif rep irtelehcs e eroittehsom ,enonnac ,ocirabrab ottolirab ehcna omaidulcni .ocimonoco Á de etulas anoub ,itavele innad otunetto aH .imisetnaci ad etnemica'f etaritr onognev e etulas If you have any questions, please ask me in the comments!Clash on, Excalibur out. If you're not that good at the game, a rookie, or just someone who wants to clean themselves up, feel free to read. The main task of the Wizard Á I is to defend a big push and then, safely behind a winning condition, snort the tower.Choose two support cards from the bottom.I recommend you choose a heavy damage support card such as Wizard, Night Witch, Hunter, Musketeer or Bomber, and other a flying troop such as Baby Dragon, Mega Minion, Minion, Minion, Minion or Moreover, if your winning condition is expensive (such as Golem) choose economic support cards such as Bomber + Archer. Meanwhile, Tornado puts it all together.You want to choose a light spell to take care of swarms, and a heavy spell to inflict substantial damage on their tower (with addition of a support to kill).Choose a light spell.Choose a heavy spell.Choose a tank killerThe name says everything. It's called value spell. Flywheel, Á l splash area and puÁ2 fill up for many cards.Alternatively, Á l you can exchange the most economical support card with a cycling card such as Skeletons, Goblin, Spear Goblin etc. Cycling cards have their name because Á are very cheap and make your deck spin fast, allowing you to put more1 winning conditions at a time.The best at a time. According to the above winning conditions, you will be awarded a deck for each one.Giant DeckThis deck is mainly offensive, but has a good defense that includes Witch, Mini PEKKA and Cannon.Hog Rider DeckCycle Pigole with great synergy!Goblin Barrel DeckThis deck does not have a small spell, but Á nevertheless great against swarms. Use a combination of Valkyrie and Baby Dragon to defend yourself well, and continue to Where Barrel lays eggs. This list that at the time of writing has the highest winning rate! includes Barbarian Barrel, Fire Spirit, Fireball, Goblin Barrel, Inferno Tower, Princess, Skeleton Army and Valkyrie. Valkyrie. PIAFI Information. Áf You can watch OjÁ é " s tricky video Barrel.Gorem DeckThis Á f i A very offensive deck. If you don't have the night witch, you can use the actual witch or even the mini pekka.lavahound deckuno of the best bunches Lavahound for the low ladder. However, make sure you use at least one economic building like Cannon or Tombstone to combat riders pigs. Choose a building, any building! Splanks! We have the last card in the deck, splanks.splank is a combination of splash-n-tank Or a troop with a good HP, moderate damage and Splash Attack.Hai obtained only 2 splanks unlocked until now: Baby Dragon and Valkyrie. I recommend choosing the splank that fits your victory with. Tank Killers kill your opponent's victory conditions. conditions.
